Welcome

We are pleased to present the profile of **YMW Construction**, a civil construction and infrastructure company based in Chhatrapati Sambhajinagar, Maharashtra.

With a strong foundation in **civil construction, road infrastructure, irrigation, earthwork and building projects**, YMW Construction has developed its capabilities through years of practical experience and project execution. Our experience includes works undertaken for government departments as well as private-sector clients.

Our approach is built on **quality workmanship, reliable execution, professional coordination and lasting relationships** with clients, consultants, contractors, suppliers and our project teams.

This profile provides an overview of our **company, capabilities, experience and selected projects**, reflecting the work and expertise that have shaped YMW Construction.

We look forward to building lasting relationships and creating value through every project we undertake.

Introduction

YMW Construction is a civil construction and infrastructure company founded by Yogesh Manohar Waghchaure, building on a strong family background in the construction industry through Waghchaure & Company.

After completing his Civil Engineering education and gaining professional experience in drafting and site execution, Yogesh established YMW Construction in 2015. Since then, he has personally managed and executed diverse civil construction and infrastructure projects.

YMW Construction undertakes Residential, Commercial & Industrial Buildings, Roads, Highways, Earthworks, Irrigation, Pipeline Works, Government Projects, Concrete Works and PEB Projects, with a focus on quality, reliable execution, safety and timely delivery.

Company overview:

YMW Construction is a civil construction and infrastructure company based in Chhatrapati Sambhajnagar, Maharashtra, India, providing construction services to government and private-sector clients.

Our capabilities cover Residential, Commercial & Industrial Buildings, Roads & Highways, Irrigation, Earthworks, Pipeline Works, Bridges, Concrete Works and PEB Projects.

With experienced technical personnel, skilled site teams, construction machinery and project-specific resources, YMW Construction focuses on quality workmanship, safe execution, timely delivery and client satisfaction.

The company has undertaken projects across Maharashtra and other parts of India, developing practical expertise in diverse and demanding construction environments.

Vision:

To build YMW Construction into a trusted and professionally managed construction company, recognized for quality, reliability, safety and excellence in project execution.

We aim to continuously strengthen our capabilities, embrace modern construction practices and deliver sustainable value to our clients and communities.

Mission:

To deliver high-quality civil construction and infrastructure projects through professional planning, skilled execution, strong safety practices and efficient project management.

We are committed to understanding our clients' requirements, delivering projects on time and building long-term relationships based on trust, quality and reliability.

Key Organizational Values

Integrity

We conduct our business with **honesty, transparency and professional integrity**, building relationships based on trust and accountability.

People

Our people are at the heart of our success. We value teamwork, skill development, mutual respect and a strong sense of responsibility across every project.

Quality & Commitment

We are committed to delivering **quality workmanship, reliable execution and practical solutions** while understanding and meeting our clients' requirements.

Safety

Safety is an integral part of our project execution. We promote safe working practices, responsible site management and awareness across our teams.

Long-Term Relationships

We aim to build lasting relationships with clients, consultants, contractors, suppliers and our workforce through consistent performance and professional service.

Services

As a full-service construction company, YMW Construction Company essentially assists clients from the very outset to the completion of their project. We become partners with our clients in understanding the five basic functions of:

- Defining and establishing the scope of the construction project
- Pre-construction project planning including preparation and scheduling of the projects, phasing plans, budgeting/cost-modeling, subcontractor qualification etc.
- On-site execution of the project includes scheduling, surveying, quality control, safety management, subcontractor management, status reporting and change management.
- Monitoring and controlling the project
- Closing of the project related to the post construction activities.

Safety:

Safety is a fundamental part of our project execution. YMW Construction promotes safe working practices, proper site management and safety awareness across all levels of our project teams.

We are committed to maintaining a safe, responsible and controlled working environment for our employees, workers, clients and other stakeholders.

We continuously encourage safety awareness and responsible work practices to support safe and efficient project delivery.

Strengths:

YMW Construction company believes that its principle competitive strengths are

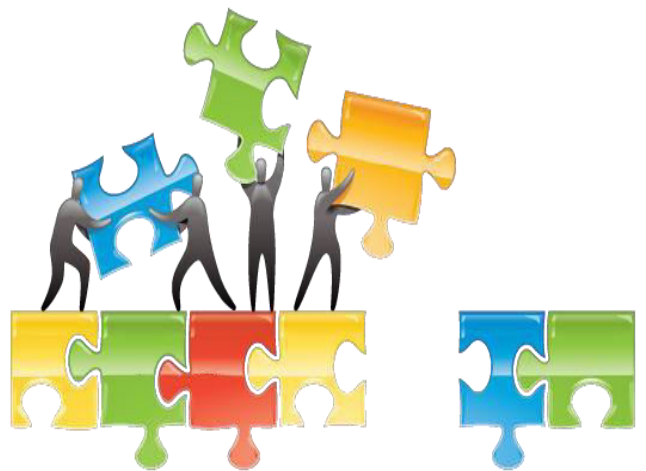

OUR STRENGTHS
